

FELDBERGSTRASSE 42

LE PLASTIQUE C'EST FANTASTIQUE BUT WE ARE GETTING RID OF IT

How to use our water carbonator

OPERATING THE CARBONATOR

1) FILL WATER TO THE LINE

2) SCREW BOTTLE INTO CARBONATOR

3) PULL LEVER UNTIL YOU HEAR A BURP

REMARKS

- Please only use the provided Aarke bottle for carbonating.
- Leave this Aarke plastic bottle near the carbonator.
- Use glass bottles for drinking. Please do not drink from the plastic bottle.
- There is a selection of glass drinking bottles, that you can use. They have individual designs so you can remember yours. Please only take one, and only if you are going to use it. Oh, and leave it in the office.
- There is a replacement cartridge in the drawer below. Please let me know if you take it so I can replace it.

TROUBLESHOOTING

CARBONATING

If there is no burp after depressing the lever for a few seconds either the cartridge is empty or it is not screwed in tightly.
